AN ACHIEVABLE DREAM

Breaking the cycle of poverty through social, academic, and moral education.

Dedicated to the belief that all children can learn and succeed, regardless of their socioeconomic status, An Achievable Dream operates two nationally recognized schools for grades K-12 through a unique partnership with Newport News Public Schools. A third school, for grades K-2, will open in Virginia Beach in July 2014, with subsequent grades added each year.

An Achievable Dream offers a quality education in a nurturing environment, the opportunity to develop meaningful relationships with caring adults, and the chance to take part in engaging enrichment activities during both the academic day and hours spent outside of school. The faculty and staff of An Achievable Dream go beyond academics to provide students with a well-rounded education through the comprehensive SAME® (Social, Academic and Moral Education) curriculum. The program stresses that college is attainable and desirable. With a 100% on time graduation rate, On average 95% of students attend college and 4% join the military.

Without An Achievable Dream, many of our students would not have the opportunities they need to succeed in school and in life.

Demographics of An Achievable Dream Students

- 1,250 students in kindergarten through 12th grade
- Upon entry, 100% qualify for free or reduced-price lunch
- 9% live in guardian-led (other than parents) households
- 78% live in single parent households
- 98% are African American

“ There were numerous times while I was growing up that I heard that the odds were against me. Because of my background and where I was from, society had already forecast my future. I chose not to believe anything that would go against my goals and dreams, utilizing the resources and character-building lessons from An Achievable Dream.”

Shukita Whitaker
Class of 2001

“ An Achievable Dream meant opportunity, exposure, resources. We were one big family and we knew what was expected of us. I liked the structure. Other students in high school wanted to be a part of it.”

Snoe Powell
